R-G-R STORE TO BE ENLARGED

Work Done On Another Story In Rear Which Will Give 15,000 Feet Additional Floor Space And Make Largest Of Its Kind Between New York And Rochester.

Early this morning a large force of mechanics began extensive alterations at the R-G-R store which will add 15,000 feet of floor space to that already large establishment, and make it easily the largest department store between New York and Rochester.

The furniture and home furnishing sections, especially, have grown so rapidly in the past two years that it has become imperative to provide additional space and for this purpose another story is to be added to the rear of the building now in use. This will also permit of the expansion of the dry goods and apparel departments.

New toilets for men and women are to be installed, as well as a new steam heating plant, and the present elevator is also to be moved to a more convenient location. New stairways will be provided and extensive additions to the present fixtures.

Altogether, Kingston will have in the R-G-R store a modern shopping place second to none in this section of the state.

SAENGEBRUND TO MEET SATURDAY

The Roundout. Social Mannerherot will entertain the three hundred delegates who will attend the convention of the Central New York Saengebrund which will be in session in Kingston on Saturday, Sunday and Labor Day. The delegates will arrive Saturday afternoon, and the reception will be tendered them that evening in Mannerherot Hall. Sunday the delegates will be entertained with a ride around the Ashokan reservoir at one of the city hotels. Saturday evening a concert will be held in Mannerherot Hall. Monday an attractive program has been arranged for the closing sessions.

AIRPLANES DROP WARNING BOMBS

The first use of airplanes in industrial warfare was recorded today when two machines, privately owned and operated, flew from Logan, W. Va., to the miners' positions at Hewitt and dropped four bombs to frighten the armed workers.

Airplanes have been used by the British government to subdue tribesmen in Africa and Northern India. A half dozen government aeroplanes from Langley Field, Va., arrived at Charleston and have taken part in test flights over the disturbed industrial area.

FORD PRICES LOWEST EVER

By Telegram to The Freeman.

Detroit, Mich., Sept. 2.—Another reduction in the price of Ford cars and the Ford truck, average \$70 under former prices, and bringing the Ford car and truck to the lowest price ever offered was announced today by the Ford Motor company.

Reductions are as follows: Chassis, 18; runabout, \$45; touring car, \$50; truck, \$50; sedan, \$17; sedan, \$180. This makes the car prices \$225, \$235, \$245, \$255 and \$260 respectively.

The production of Ford cars and trucks for August again broke all records with the total reaching 117,695. This is the fourth consecutive month in which our output has gone over the hundred thousand mark. The total for the four months being 462,674, which has gone along with it in making possible the great reductions.

No reduction has been made in the price of the Ford tractor and one is contemplated.

New Franklin Prices

By Telegram to The Freeman.

Syracuse, N. Y., Sept. 2.—In an announcement made by its dealers yesterday the Franklin Automobile company put into effect immediate price reductions on its product ranging from \$2,250 for the light car model to \$2,250 for the top of the line. The company's new model, with proper adjustments, is the five other models. Production of the Franklin plant has been normal capacity for months. The maintenance of volume manufacture and reductions in cost of material and labor, company officials claim makes possible the present price cut.

Track At Trotter Car.

By Telegram to The Freeman.

New York, Sept. 2.—A score of persons were injured, two seriously, when a trolley car today side-swiped a truck in Brooklyn.

NIGHT OF TERROR IN WEST VIRGINIA

By Telegram to The Freeman.

Logan, W. Va., Sept. 2.—A night of wildest terror has passed in Logan. The miners, swarming at many points on the 25 mile front, threatened hourly to smash through the lines. The defenders, reinforced by business and professional men from every section of the state, were thrown into the lines. They returned shot for shot with the miners.

The president's proclamation was nothing more than a "scrap of paper." The miners sullenly rejected it and continued to drive additional men to the border. The Hewitt Creek confrontation is the greatest in point of numbers of men, but at other points on the border the miners are congregating this morning.

Miners working in the Logan field, left the mines to join the army of defense.

The miners had been working practically eighty percent. Only such coal as is necessary here will be produced. The workers have shouldered rifles and are being thrown into the lines to reinforce the exhausted defense army.

Casualties are known to have occurred last night and early today, but because of the confusion and darkness it has been impossible to verify any of the reports.

The fifteen hundred miners added to the defense brings the Loganite army to nearly 1,000 men.

The action of the miners is regarded as highly significant as to the feeling of workers in this field. It is declared a headquarters that there have been no desertions to the "red necks" as the attacking army is known, because of the red bandanna handkerchiefs they wear around their arms.

After the miners had volunteered for defense service, Colonel William E. Eubank declared he would be able to hold his positions until the federal troops arrived.

"I am pleased with the situation this morning," he told the International News Service. "I have sufficient force to maintain our positions until the United States federal troops get to Logan."

One reinforcement party from Welch arrived this morning. They are coal miners who, headquarters say, receive nothing but food for their services. However, the Welch mine operators are paying the men, the same as though they were working.

A squadron of airplanes was dispatched on a reconnaissance party at 8 o'clock. It was expected important information would be available on their return.

The word that federal troops are enfilading was circulated widely along the Logan front this morning. The information was greeted with cheers.

The defending army stood with renewed determination on the receipt of the message. Everywhere it was declared the positions would be held until the arrival of the troops.

In Logan court house an intense feeling of relief followed the Washington dispatches.

Logan did not sleep last night. The women were not cooking for the defenders; the men were on the front or in reserve, snatching an hour or two of sleep at the court house between reliefs of the guard.

Bored of fifteen years have been pressed into service. Old men of eighty are shouldering rifles and doing their turn at guard in the front line positions.

Every effort is strained by the Loganites to hold the county until the arrival of the federal troops.

Veterans of the Civil War who were in famous Logan border wars, which fought in the Civil War, are said to be under arms again.

An effort was made to burn and dynamite the Chesapeake and Ohio bridge on the Guyan Valley division at Big Creek early today. A portion of the bridge was burned and dynamited discovered by a sentinel, who extinguished the fire.

If the bridge had been destroyed, the only railroad communication to Logan would have been cut off. This would have prevented the arrival of supplies and caused a big delay in the dispatch of United States troops.

The Big Creek bridge is over Guyan River. It is a long span and its replacement would have been difficult. As a result a heavier guard has been thrown out over the railroad line.

The official communique of Colonel W. E. Eubank, commander of the volunteers, this morning said:

"Heavy firing took place at Mill Creek at 5:30 a. m. The miners made a concerted attack but were thrown back."

"There was firing at Crooked Creek all night. Reinforcements were dispatched to the danger zones. The miners were unable to advance."

"Forty men, mostly former A. E. F. officers, arrived from Charleston. Other reinforcements arrived from Welch."

"No official report of casualties is made public."

At Crooked Creek, a detachment of fifty men defending a mountain pass, was thrown back a half mile by a heavy attack of the miners just after day break.

The detachment "due in" after returning and was able to hold their position against repeated attacks of the miners' army. No counter attack was attempted, reinforcements being awaited.

The authorities say there were no casualties in this skirmish.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

The remains of Sergeant George Swan Berryman, who died in France, arrived at Kerhonkson Thursday. Interment will be in the Stone Ridge cemetery Saturday afternoon at 2 o'clock standard time.

Aloysius Weiner, son of William J. Weiner, who has a summer home at St. Remy, will be buried in the Cypress Hills cemetery in Brooklyn. He was 21 years old and during the war was a member of the 110th Machine Gun Company and was killed in action on September 28, 1918.

Mrs. W. N. Townsend died at her home on Lincoln street, Ellenville, Wednesday evening. Mrs. Townsend had the misfortune to break her hip some months ago by a fall and has been failing since that time. She leaves, besides her husband, four sons and one daughter. The funeral will be held Saturday afternoon at her late home, conducted by the Rev. Charles Dann. Interment in the Fantinekill cemetery.

Michael F. McNeerney, a native and former well known resident of Ellenville, died on Tuesday at East Orange, N. J., where he had resided for some time past. Mr. McNeerney married Elizabeth Walsh, who survives, with one daughter, Mrs. Paul Doehner, residing at East Orange. Funeral services will take place Saturday morning at 9 o'clock from St. Mary's Church, Ellenville, and interment will be in the family plot in the old cemetery.

The body of Captain Henry Thomas was found in the river at 9th street, New York city, and was identified by his son-in-law, Dwight T. McEntee, on Thursday. The body was turned over to Stock & Corday and brought to this city Thursday evening. The funeral, which will be private, will be held from the residence of Mr. McEntee, No. 95 Orchard street, Saturday afternoon. Interment in the family plot in Montrose cemetery.

Mrs. Mary Crosby Schwab, wife of William Schwab, died at her home in Hackensack, N. J., Thursday morning. Mrs. Schwab was a former resident here, the daughter of the late Robert and Mary Crosby. Besides her husband she is survived by one son, Raymond, and one sister, Mrs. Nicholas Murphy, and four brothers, William, Robert, Joseph and Louis. The funeral will be held Saturday afternoon on the arrival of the 1:10 p. m. West Shore train. Interment in St. Mary's cemetery.

Thomas Stenson of 3 Rogers street, this city, who died in New York Wednesday after a short illness, is survived by one son, Robert, and three daughters, Anna, Marie and Helen. Mr. Stenson was in the transportation business in New York city and was one of the best known men in that line in the harbor. The funeral will be held from the home at 3 Rogers street, Monday morning at 9:30 o'clock and at St. Mary's Church at 10 o'clock, where a solemn mass of requiem will be offered for the repose of his soul. Interment in St. Mary's cemetery.

Francis J. Fannon, a former resident of the Ellenville section, but of late years living in New York city, died Saturday morning at the Topping Sanatorium, Ellenville, aged sixty-two years. Mr. Fannon was one of the founders of Home-View, which had come to Ellenville to take part in the restoration of former residents and was in attendance at the exercises in Memorial Hall on Friday evening when taken suddenly ill. It was thought at first to be only a fainting spell, as he maintained consciousness, but later after removal to the home of his cousin, Mrs. John Torker, it was found that he had suffered a stroke of paralysis. His widow, who had remained in their home in New York at once started by automobile for Ellenville, but the husband and father had passed away before their arrival. The remains were taken to New York Saturday afternoon. The deceased came to Philadelphia when about twenty years of age, where he spent his boyhood, and went to the city in his early twenties. For sixteen years past he had been employed as superintendent of the Board of Education Building at Park avenue and 58th street. At the age of about 33 he was married to Annie Campbell, of New Rochelle, Pa., who survives him with six children, all of New York city. Both Mr. and Mrs. John Torker, of Ellenville, the latter surviving, were cousins of Mr. Fannon. A brother and two sisters, of the original family, are deceased, so that Mr. Fannon was the last of his family.

HOLD THREE FOR GRAND JURY

Joseph Abraham, William Woerner and Robert Ortale, Whose Places Were Raided by the Police, Waived Preliminary Examination.

This morning in police court before Judge Schirck three men who were arrested by the police following raids on their places of business when a considerable quantity of what is said to be intoxicating liquors was seized, all waived preliminary examination, and were held to await the action of the next grand jury.

The three men were Joseph Abraham of Chambers street, William Woerner of Murray street, and Robert Ortale of 411 Chambers street. In the case of the first two bail was furnished in the sum of \$500 and in Ortale's case his cash bail of \$250 was continued.

There were no other cases in police court this morning.

A brother and two sisters, of the original family, are deceased, so that Mr. Fannon was the last of his family.

TROOPS ORDERED TO WEST VIRGINIA

By Telegram to The Freeman.

Washington, D. C., Sept. 2.—Federal troops were today ordered into West Virginia to disperse the armed bands of miners who are threatening an invasion of the Mingo county coal regions there.

Major General Harbord, chief of staff, announced that he has ordered the 19th Infantry from Camp Sherman, Ohio, and the 29th Infantry from Camp Dix, N. J., to proceed immediately to West Virginia in response to a request from General Bandholtz, representative of the president, in West Virginia.

General Harbord stated that he had taken the action without awaiting the proclamation of martial law, and at an early hour today he was unable to say whether the president had issued the martial law proclamation.

The troops probably entrained about four o'clock this morning, General Harbord said.

General Harbord announced later that he had been advised definitely that the proclamation of martial law has not yet been issued, and indicated that it probably would not be promulgated until later in the day. The lack of a proclamation of martial law will not interfere with the movement and operation of the troops, General Harbord said. "There will be plenty of marshals there, whether they have martial law or not," the general said.

Secretary Weeks arrived at the war department shortly before 9 o'clock. He stated that he would take no action until he had an opportunity to read the reports on conditions in West Virginia which had come in during the night.

The telegram received from General Bandholtz early today declared the armed forces were not indicating any intention to disperse and that the situation appeared to be critical with immediate need for troops. General Harbord said. Since this telegram was received no further report has been received from General Bandholtz. The two regiments of infantry should reach the disordered regions before noon, General Harbord believes. On their arrival there they are to be under the command of General Bandholtz, who will issue such orders as he may see fit.

Whether a third regiment of infantry, now standing by at Camp Dix awaiting orders, will be ordered into West Virginia today, depends upon future reports and recommendations from General Bandholtz.

At 8 o'clock this morning none of the officials of the war department had been advised that the proclamation of martial law had been issued. The secretary of war was not available and his secretary stated that he was of the opinion that the proclamation would be issued tomorrow in the morning prior to the time of the arrival of the troops in West Virginia.

Camp Dix, N. J., Sept. 2.—Orders for movement of the 26th Infantry regiment from Camp Dix to the West Virginia trouble zone were received today by Major General David Shanks, camp commander, and he instructed the colonel of the regiment to prepare for immediate departure. The 1,000 soldiers and machine gun company comprising the regiment were expected to be under way in an hour.

The troops now enroute are under orders to proceed to Charleston, W. Va., where their commanding officers will report to General Bandholtz who will take over the command and dispose of the forces as he sees fit. General Bandholtz is under no restrictive orders and is called upon to handle the situation as a tactical one, using whatever military methods he may deem best. Having served as a volunteer marshal general of the Philippines and having acted in the same capacity with the A. E. F., General Bandholtz is well fitted to cope with such situations as now confront him in West Virginia.

A squadron of aeroplanes is now based at Charleston and General Bandholtz may use these forces as he desires. The war department has ordered a supply of tear gas bombs sent to Charleston and if the commanding officer chooses, he may attempt to employ this method of dispersing the mobs.

The regiments of infantry ordered into the troubled zones include a machine gun company. All forces are carrying large stores of ammunition and supplies.

General Harbord received a report from General Bandholtz, representative of the president in West Virginia, in which it was stated that conditions today are unquieted from those of last night which led to the recommendation for federal troops.

STATESMEN TO SEE THE HUDSON

At Expense of Those Opposed to St. Lawrence Canal Project—Plan Decided on at Albany on Thursday.

A boat trip on the Hudson river from New York to Albany on one of the steamers of the Hudson River Day Line, and then a trip across the state to Buffalo for Senators, Congressmen and governors of different states and large shippers was decided on at a meeting held in Albany on Thursday by representatives of various organizations as the first move against participation by the United States in the cost of constructing the St. Lawrence river canal. Such a trip, it is expected, will give the members of the party a comprehensive knowledge of New York state's \$200,000,000 canal system, and \$10,000 will be raised at once to defray the expenses of the trip, which will occupy about five days.

The trip will be made before October 25. The visitors will be entertained at Albany the first night. Subsequent stops will be at Poughkeepsie, Newburgh, and the Hudson river, and the barge canal. The New York Canal and Great Lakes Company offered a transportation unit for any part or the whole of the Albany-Buffalo trip.

A number of speeches were made at the Albany meeting. Murray Hulbert, dock commissioner of New York, stated that it would be absurd for the state of New York to lend a hand toward the culmination of the St. Lawrence canal project until the New York barge canal is developed to its fullest capacity. He said everybody regretted that the canal does not carry the commerce of which it is capable. "That is not due to any fault of ours," he said. "We have been largely victims of circumstances growing out of the war." The United States, he said, had given its funds to France and Belgium as an incident to the prosecution of the war, but the people should not leave the impression that we are ready to step into every country and lend our credit for the purpose of improving their waterways at the expense of our own.

The interest of New York state was pointed out as the proportion of cost which it would bear in the St. Lawrence canal project provided the United States should be called on to pay half a billion dollars as its share of the St. Lawrence project. Should this happen, New York state's share would be approximately one-quarter of the half billion.

State Senator Leonard M. V. Gibbs said that Secretary Hoover estimated the cost of the St. Lawrence project at \$1,300,000,000.

The uselessness of canal development unless the Hudson river was deepened was pointed out by Former Governor Martin H. Glynn, who criticized Congress for its failure to be alive to the importance of the canal system in this state and arranged both the Democratic and Republican parties for having "turned deaf ears" to the pleas of New York for the deepening of the Hudson river.

George E. McCoy of Peekskill, president of the Hudson River Federated Chamber of Commerce, said that while the prime move in the effort to defeat the St. Lawrence project had been made by that organization, he hoped the plan would be adopted by the state at large.

Among those who attended the meeting were John D. Dunlop, chairman of the conference committee, president Charles T. Wynne, chairman of the New York Chamber of Commerce, Mayor Carl F. Brower of North Tonawanda, Deputy Corporation Counsel Frederick C. Rupp of Buffalo, George W. Smith of the Lackawanna-Buffalo Steel Company, M. C. Fitzgerald of the General Electric Company of Schenectady, A. P. Rein of St. Louis, E. P. Goodrich of the Technical Advisory Corporation of New York city, E. N. McKinney of Albany, Adjutant General Cole, E. B. Kath, representative of A. H. Smith of the New York Central Railroad, J. C. Lincoln of the Merchants Association of New York, William E. Cleary of the New York Board of Trade and Transportation, Sidney D. M. Hudson, secretary of the Kingston Chamber of Commerce, James A. Dwyer, C. A. Faxon, John Hillebrand, Thomas J. Comerford, Louis F. Cox, president of the Catskill-Shawangunk Mountain Association, and Lorraine B. Wood, assistant city engineer, representing Mayor Caulfield.

Practically every civic organization along the Hudson and Mohawk rivers and a number of business associations of New York city were represented at the conference.

The matter probably will be gone into more thoroughly at the meeting of the Hudson Valley Federated Chamber of Commerce to be held in Kingston during September.

A committee to work out a plan consisting of Congressmen Peter G. Ten Eyck of Albany, George McCoy, Peckskill, Richard S. Barrett, Catskill, J. C. Trainor, New York city, Dwight Martin, Troy, Louis F. Cox, Kingston, Murray Hulbert, New York city, Judge William E. Wolcott, Albany, George Lehmann, Buffalo.

STATESMEN TO SEE THE HUDSON

At Expense of Those Opposed to St. Lawrence Canal Project—Plan Decided on at Albany on Thursday.

A boat trip on the Hudson river from New York to Albany on one of the steamers of the Hudson River Day Line, and then a trip across the state to Buffalo for Senators, Congressmen and governors of different states and large shippers was decided on at a meeting held in Albany on Thursday by representatives of various organizations as the first move against participation by the United States in the cost of constructing the St. Lawrence river canal. Such a trip, it is expected, will give the members of the party a comprehensive knowledge of New York state's \$200,000,000 canal system, and \$10,000 will be raised at once to defray the expenses of the trip, which will occupy about five days.

The trip will be made before October 25. The visitors will be entertained at Albany the first night. Subsequent stops will be at Poughkeepsie, Newburgh, and the Hudson river, and the barge canal. The New York Canal and Great Lakes Company offered a transportation unit for any part or the whole of the Albany-Buffalo trip.

A number of speeches were made at the Albany meeting. Murray Hulbert, dock commissioner of New York, stated that it would be absurd for the state of New York to lend a hand toward the culmination of the St. Lawrence canal project until the New York barge canal is developed to its fullest capacity. He said everybody regretted that the canal does not carry the commerce of which it is capable. "That is not due to any fault of ours," he said. "We have been largely victims of circumstances growing out of the war." The United States, he said, had given its funds to France and Belgium as an incident to the prosecution of the war, but the people should not leave the impression that we are ready to step into every country and lend our credit for the purpose of improving their waterways at the expense of our own.

The interest of New York state was pointed out as the proportion of cost which it would bear in the St. Lawrence canal project provided the United States should be called on to pay half a billion dollars as its share of the St. Lawrence project. Should this happen, New York state's share would be approximately one-quarter of the half billion.

State Senator Leonard M. V. Gibbs said that Secretary Hoover estimated the cost of the St. Lawrence project at \$1,300,000,000.

The uselessness of canal development unless the Hudson river was deepened was pointed out by Former Governor Martin H. Glynn, who criticized Congress for its failure to be alive to the importance of the canal system in this state and arranged both the Democratic and Republican parties for having "turned deaf ears" to the pleas of New York for the deepening of the Hudson river.

George E. McCoy of Peekskill, president of the Hudson River Federated Chamber of Commerce, said that while the prime move in the effort to defeat the St. Lawrence project had been made by that organization, he hoped the plan would be adopted by the state at large.

Among those who attended the meeting were John D. Dunlop, chairman of the conference committee, president Charles T. Wynne, chairman of the New York Chamber of Commerce, Mayor Carl F. Brower of North Tonawanda, Deputy Corporation Counsel Frederick C. Rupp of Buffalo, George W. Smith of the Lackawanna-Buffalo Steel Company, M. C. Fitzgerald of the General Electric Company of Schenectady, A. P. Rein of St. Louis, E. P. Goodrich of the Technical Advisory Corporation of New York city, E. N. McKinney of Albany, Adjutant General Cole, E. B. Kath, representative of A. H. Smith of the New York Central Railroad, J. C. Lincoln of the Merchants Association of New York, William E. Cleary of the New York Board of Trade and Transportation, Sidney D. M. Hudson, secretary of the Kingston Chamber of Commerce, James A. Dwyer, C. A. Faxon, John Hillebrand, Thomas J. Comerford, Louis F. Cox, president of the Catskill-Shawangunk Mountain Association, and Lorraine B. Wood, assistant city engineer, representing Mayor Caulfield.

Practically every civic organization along the Hudson and Mohawk rivers and a number of business associations of New York city were represented at the conference.

The matter probably will be gone into more thoroughly at the meeting of the Hudson Valley Federated Chamber of Commerce to be held in Kingston during September.

A committee to work out a plan consisting of Congressmen Peter G. Ten Eyck of Albany, George McCoy, Peckskill, Richard S. Barrett, Catskill, J. C. Trainor, New York city, Dwight Martin, Troy, Louis F. Cox, Kingston, Murray Hulbert, New York city, Judge William E. Wolcott, Albany, George Lehmann, Buffalo.

New Chemical Kills Bed Bugs P. D. Q.

P. D. Q. (Peaky Devil Quicker) is the name of a new golden colored chemical discovery by Dr. Price that actually kills the worst bed bugs, roaches, fleas, ants and their eggs. They don't have time to get away from you after they are hit. P. D. Q. is a 2c. package of P. D. Q. makes a quart of strong bug-killing, and goes farther than a barrel of the old-fashioned kerosene dips. P. D. Q. coats and kills their eggs and prevents hatching. FREE a potent spot in every house so enable you to get them in the hard-to-get places, and save money. P. D. Q. for family use 2c. Special Hospital and Hotel use \$2.50 makes 5 gallons, contains 2 quarts—your druggist can supply you, or sent prepaid to your address either in or out of state by the Dr. Price Chemical Co., Terre Haute, Ind. P. D. Q. is never peddled.

W. M. S. ELLING, President.

SHERIFF'S SALE.
County of Ulster, ss.
By virtue of an execution issued out of the Supreme Court of the State of New York, to me directed and delivered, against the goods and chattels, lands and tenements of Harry Desmond, I have seized and taken all the right, title and interest of said defendant in and to the following described property, to wit:
All that tract or parcel of land, situated in the Village of Saugerties, County of Ulster and State of New York, bounded and described as follows:
Being the north side of Clermont street bounded on the east by lot now or formerly of Peter E. Shear, north by lands formerly of Robert A. Snyder, on the west by lot now or formerly of Sherman Austin, and on the south by Clermont street.
Said lot being about 33 feet front and 73 feet deep.
And being the same premises conveyed by Louis J. Butzel to the party of the first part by deed dated February 14th, 1904, and recorded in the Ulster County Clerk's Office on February 10th, 1904, in Book No. 342 of Deeds at page 194, to which deed or record thereof, reference is hereby made.
Which I shall expose to sale as the law directs, on the 15th day of September, 1921, at 12 o'clock noon, at the Court House in the City of Kingston.
Dated this 25th day of July, 1921.
WILLIAM H. HOLTS,
Sheriff.

FIRST DISPLAY OF FALL STYLES in Suits, Coats and Dresses

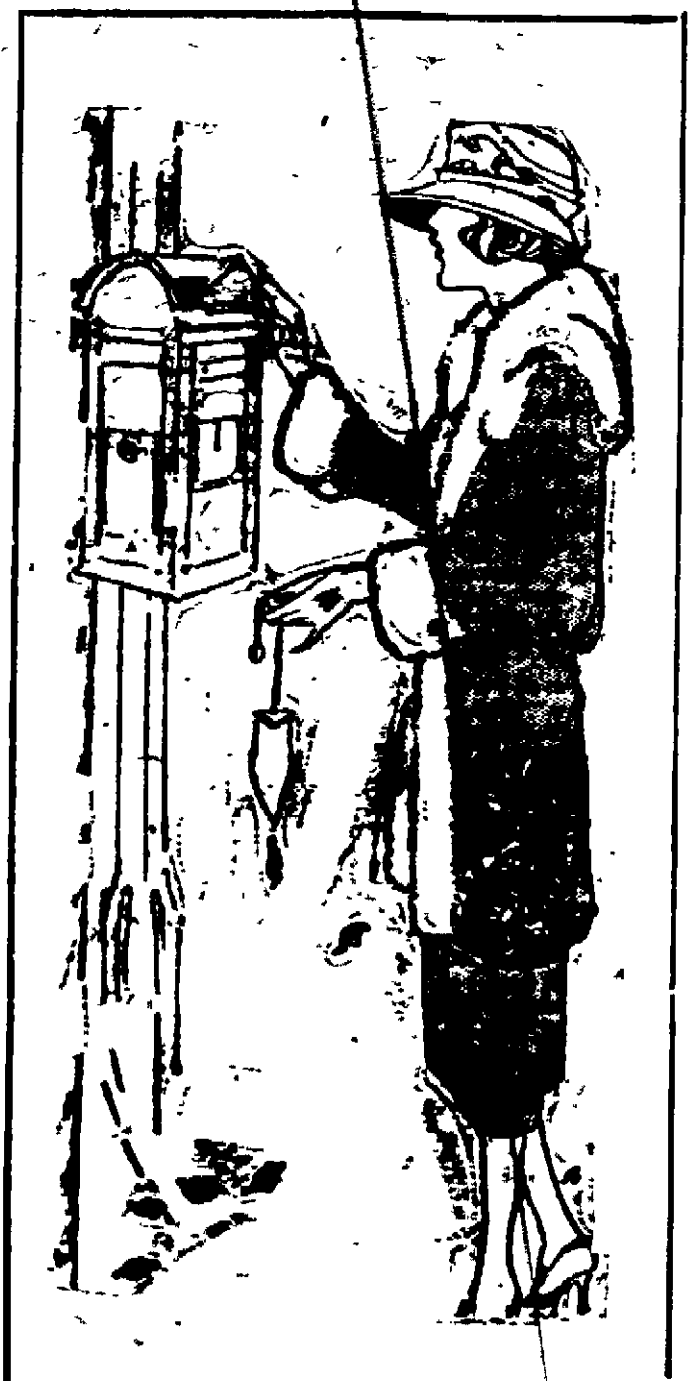

The early Fall Season is at hand. The prudent woman, the stylish, the well groomed woman, is giving attention at this time to the wardrobe that will be hers for the season, now opening. We invite at this time, the inspection of women of this kind. We have a fine line of the very newest

Suits, Coats and Dresses

of fine materials exquisite style and dependable workmanship. Many of these garments are advance models. All of them are attractive and possess a distinction that appeals to the woman of taste and refinement. Stop in our store and look them over.

As to Prices!

It is ever our aim to provide the women of Kingston and vicinity with goods that have merit and that are classy, at prices that are always reasonable. In fact no higher than are frequently asked for garments that are commonplace and without charm.

THE DRAPED HAT

Materials Used in Dresses Popular for Headgear.

Gingham and Linen and Dotted Swiss and Organdy Used for Bonnets and Chapeaux.

There has been no sudden leap from shaped hats to draped hats, writes a correspondent. The change has been gradual, but the smartest thing that one can do in the way of headgear is to wear a hat that is made of something other than the long-accepted hat stuffs. The milliners used to say that this and that fabric would not "make up" well for hats, but now the feeling is that they stop at nothing when it comes to fashioning a hat out of some strange fabric never before used for that purpose.

Then there are hats of gingham and linen and dotted Swiss and organdy—all of the materials, in fact, that are used for summer cotton dresses. Sometimes they are fitted to the shapes underlying them and at other times they choose to drape themselves about smaller shapes, forming deep folds and becoming twistings.

A fashion that has appeared in spots during the last few weeks is that of wearing a hat to match, in some way, the material of the gown. For instance, there was seen a tailored frock of dark blue linen inconspicuously trimmed and bound with white cotton braid and worn with a white mull blouse. Then there was worn with this a short-brimmed sailor made of the heavy linen fitted to the shape and trimmed with a broad

Embroidered Hat in Red and Black and Hat of Colored Duvetyn and Quills.

sort of white organdy, the freshness and crispness of which added largely to the generally cool look of the gown itself.

Most of the summer hats are large, for the simple reason that the heat and sun of the season really demand this sort of protection. And some of the sweetest of the really summery hats are made either of white or very lightly tinted organdy.

THE DIFFERENCE IN CLOTHES

Over-decoration Covers Up Defects That Are Not to Be Found in Plain Garments.

Present-day clothes may be criticized on the score of over-decoration. Not all of them, of course, but ready-made clothes are inclined to stagger under a weight of heading or embroidery or be overemphasized by too much zeal on the part of the designer.

Plain clothes are always the most expensive. The best dressmakers and tailors are those that devote their talents to achieving excellence of line and to using excellent materials. It is more difficult to make a well-cut line, which has no trimming to detract from its cut, than to make a really fancy gown. Every woman who has made things herself knows how much simpler it is to make evening frocks and stuffy afternoon things than it is to make plain good-looking street clothes.

Simplicity is the greatest possible luxury—it always comes high, but one beautifully cut and made gown of good material is worth half a dozen cheap ones, and it is the woman who selects her clothes on this principle who is considered a well-dressed woman.

Remember This: If your crepe will in two wrinkles you can destroy it by holding it in both hands and pulling it through the seams of the tea table several times.

Bonnet of a Good Laugh. However, the laugh comes, it is a beautiful fact that a few bonnet "laughs" form one of the best tricks imaginable. It gives plenty of fresh air into the lungs, and generally does not get up. And, it comes the same.

KINGSTON, N. Y., SEPT. 2, 1921.

Maine has been a prohibition State so long that the whole country is shocked to hear that twelve of its experienced citizens recently paid \$2,300 for seven kegs of water.

Senator John Sharp Williams says he has known "but two men in Congress who were true humorists." Obviously he does not count the unconsciously humorous members.

And now a million Polish children are looking to the United States for food, Poland having been on the rampage ever since "peace" was declared in Europe. It is a great game.

Former Governor Osborn, of Michigan, recently choked a bear to death. He has nothing on Lenin and the Russian bear, the difference being that the aid of the United States will not be invoked to resuscitate Osborn's victim.

Bank clearings for the first seven months of 1921 were 20 per cent less than in the same period of 1920, but since prices have declined more than 20 per cent, the figures represent relatively more actual business.

Those who contend that the lynching of a negro or negroes guilty of a certain vile crime can not be prevented after the populace has risen in its wrath may be referred to the recent instances at Barnstable, Mass., and Knoxville, Tenn. Troops had to be called out in both cases, but there were no lynchings.

A troubled mother who asked the Kansas City Star what she should do to stop her 12-year-old son from "reading everything he can lay his hands on," was told, in effect, to do nothing. This was undoubtedly good advice, not necessarily eliminating judicious parental selection so far as that is possible.

The last of the proud house of Hapsburg, ex-Emperor Charles of Austria-Hungary, after losing his throne is now financially ruined by the failure of a Swiss bank in which he had deposited \$1,000,000 crowns. Such hard luck is another impressive reminder of the folly of putting all of one's eggs in a single basket.

It will be a near-miracle if the present Congress is able to reduce taxation by \$500,000,000 for the year 1921-2, as now indicated. If accomplished, the Republican administration will deserve all the commendation that can be given. The Republican party in its 1920 platform made it clear that no immediate reduction of taxes could be expected. If, now, the party does far more than it promised to do, it will more than earn the confidence reposed in it by the people.

After a careful study of the law of 1873 in connection with other legislation already on the statute books, Attorney General Daugherty has determined that he has ample power to prevent former Federal office holders from prosecuting claims against the Government that originated during their term of office. The rosy prospects of many former Democratic officials have suddenly faded, and the fat fees they hoped to garner from claimants against the Government appear considerably more remote.

Mr. Lloyd George will come to Washington fully fortified for the fray. He will have with him the Anglo-Japanese alliance, the recent vote of the British parliament to build four more super-battle cruisers, and the traditional policy of Great Britain to maintain a navy inferior to no other. It has been the British record to emerge from international conferences stronger than when she entered, and it is more than likely she hopes for a similar happy outcome at Washington.

The Executive Council of the American Federation of Labor has discovered that the plot against the wage earner has extended to the writers of school text books, and sees a well organized effort to misinform the children of the public schools on industrial and economic problems. To effect that malign influence, the Council will furnish schools throughout the country with books, pamph-

lets, and speeches presenting its version of industrial problems. Here is a chance for the Plumb Plan Leaguers to unload some of the literature from their propaganda headquarters in Washington.

Burroughs Nature Club Notes

Copyright 1921
 By ROBERTSON HIFFLIN CO.

What do you want to know about Nature Subjects? Send any questions of general interest to the Nature Notes Dept. of this paper. Look for answers in this column.

Can You Answer These Questions?

1. What is the biggest fish in the world, also the smallest?

2. Does any bird build its nest on the water?

3. Please explain if the grocery store artichoke is the same as the Jerusalem artichoke recently mentioned in these Nature Notes?

Answers in Tomorrow's Nature Notes.

Answers to Previous Questions.

1. What is the best preventative to keep bee moth out of hives?

We can't advise how to prevent bee moth or wasp worm. A strong healthy colony in a tight-jointed clean hive will itself fight intruders, especially if the bees are Italians. Seriously infested comb must be fumigated. Professional bee keepers advise bisulphide of carbon highly explosive and dangerous. It should be done in some outhouse, not in a main building, with no flame or fire of any kind near.

2. Have we fewer birds now than before the country was settled? Undoubtedly many kinds are fewer, or even extinct, but the general bird population probably maintains itself, particularly in the past few years, when laws for bird protection, plus a widespread public sentiment, have done much to increase the numbers of many species. The common birds of village and field appear to profit by civilization. Birds whose feathers or flesh are coveted in the market, however, diminish unless artificially protected.

3. Are sunflower seeds good to eat? Poultry and birds eat the oily seeds of cultivated sunflowers, and the latter yield an oil fit for table use. Seeds of wild sunflowers have been used by Indians for grinding into meal from which a bread, not unlike corn bread, is made.

OUR DAILY PATTERN.

A Becoming Play Garment.

Pattern 3171 is here shown. It is cut in 5 sizes, 1, 2, 3, 4 and 5 years. A 4 year size will require 2 1/2 yards of 36 inch material.

Tan chambray embroidered in blue and red; striped seersucker or checked gingham combined with white pique or cambric would be attractive for this model.

A pattern of this illustration mailed to any address on receipt of 12c in coin or 1c and 2c stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

Catalogue Notice.

Send 15c in coin or stamps for our up-to-date spring and summer 1921 catalogue, containing 550 designs of Ladies', Misses' and Children's Patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 70 of the various, simple stitches), all valuable hints to the home dressmaker.

TWENTY AND TEN YEARS AGO.

Sept. 2, 1901.—William Watson died at Rhinebeck, aged 76 years. Kingston Knights of Columbus defeated Newburgh Knights of Columbus at baseball by score of 11 to 7. Parade of Sargent's fire department held.

Sept. 2, 1911.—James Quinn appointed one of the official referees at boxing bouts under new state law. Charles B. Finch and Miss Helen Seymour Hadden married. Patrick Cuddy died at his home on Hooker street.

Steamers W. F. Romer and Ida damaged in a head-on collision near Marlborough.

Death of James E. Merrinew on Washington avenue, aged 53 years.

ALLIGERVILLE.

Alligerville, Sept. 1.—Sunday Mr. and Mrs. H. B. Derritt and son Virgil motored to Camp Boulder in Dutchess county where the Rev. H. W. Noble and family are camping.

Mr. Abe Crowe and Mrs. Gus Johnson spent Sunday in The Caves with Mrs. Johnson's mother, Mrs. Lawrence.

The boarding season ended at the Tekamah place. The carpenters have returned to complete the unfinished improvements.

Miss Emma Harnden who is ill at the home of R. J. Rome is being attended by Dr. Harker.

Virgil Brooks of Kingston and Mr. and Mrs. R. J. Hines of Stone Ridge were guests of Mr. and Mrs. W. Brooks Sunday.

The Nines Viola and Minnie Kallhoff who have been spending a few days at their summer home here have returned to their home in the city.

TO REDUCE DANGEROUS VARICOSE VEINS

"People who have swollen veins in the legs should not wait until they reach the bursting point, which means much suffering and loss of time, but should at once secure from any reliable druggist a two-ounce original bottle of **Moore's Emerald Oil** (full strength).

By using this powerful yet harmless guarantee treatment improvement is noticed in a few days and by its regular use swollen veins will return to their normal size, and discomforts will cease to worry. Moore's Emerald Oil is used by physicians and in hospitals and is guaranteed to accomplish results of money returned.

It reduces all kinds of enlarged glands, rotters and wens, and is used exclusively in many large factories as an antirust first aid to the injured antiseptic. Generous sample on receipt of 15 cents, silver stamp, International Laboratories, Rochester, N. Y. Your druggist or McBridge Stores can supply you.

WEST PARK.

West Park, Sept. 2.—A delightful birthday party was given to Mrs. Eliza Travis, on Wednesday evening at the home of Mr. and Mrs. Perc Travis.

Louis Margie returned to New York City on Thursday after spending several enjoyable weeks at the home of Mr. and Mrs. Frank Valli.

Miss Carrie Travis spent a few days the past week at the home of Mr. and Mrs. Julian Burroughs in Kingston.

Mr. and Mrs. Walter Baldwin spent Tuesday in Poughkeepsie.

Miss Anna Kaiffin gave a farewell party at her home on Wednesday evening to Mr. and Mrs. Frank Valli and family also to Louis Margie. At a late hour the guests departed for their homes, after spending a very enjoyable evening.

Mrs. John Wood and children returned to their home in West New York on Wednesday after spending several weeks with her parents, Mr. and Mrs. James Achert.

Edward Heald, of Brooklyn is spending a few days at the DuMont boarding house.

Mrs. Alice DuMont is visiting relatives in New York.

Miss Marie Fiege spent Monday in Kingston.

Mrs. Fred Nelson and sons of Jamaica L. I. are spending a week at the home of Mr. and Mrs. Vincent Quinn.

Mrs. Martin Von Stein is spending a few days with relatives in Yonkers.

PITCHER BROKE BONE IN ARM

A young man named Appleby, residing in Brooklyn, who has been spending the summer near Shavertown, Delaware county, broke the bone of his right upper arm midway between the shoulder and wrist while pitching ball on Thursday. The fracture was a clean break, extending diagonally across the bone, and caused intense suffering and resulted in immediate swelling of the arm to more than twice its normal size. Appleby was examined by Dr. Faulkner of Margareville, who brought him to Kingston where an X-ray examination was made by Dr. H. P. Van Wagenen. Appleby expected to go to Brooklyn today for treatment by his family physician. While cases sometimes occur of shoulders or elbows being dislocated from throwing a baseball, this is the first case in this section where a ball has been thrown with such force as to cause a fracture of the arm.

Spring Street Lutheran Church.
The annual harvest and mission festival will be held under the auspices of the Ladies' Aid Society on Wednesday evening, September 21. The service beginning at 7:30 will be in English and the Rev. W. J. Nelson, pastor of the Lutheran Church of the Redeemer, will deliver the sermon. Following the service an elaborate exhibit and sale of fruit and vegetables donated by the farmers and gardeners of the congregation will be held in the school hall and refreshments served.

The Saturday school will reopen on Saturday morning, September 10, at 9 o'clock. The aim of this school is to give the children a thorough religious training and to prepare for confirmation and first communion. The instruction, English, is given by Prof. J. Stumpf and the pastor. Children of the age of 10 years should attend this school until they attain the required age for confirmation.

The anniversary service of the Ladies' Aid Society will be held on Sunday, September 18, at 10:30 a.m. The services will be in English. The service next Sunday morning will be held in English and a large attendance is anticipated.

Young Monograms Won.
The Young Monograms defeated the Victory Juniors by the score of 9 to 0. The umpire gave the Young Monograms the game because the Victory Juniors did not show up. The battery for the two teams would probably have been: For the Victory Juniors, Cohen, pitcher and Wood, catcher; for the Young Monograms, E. Brandt, pitcher, B. Kruger, catcher.

Card Of Thanks.
We wish to thank all our friends and neighbors for their kindness and sympathy in the loss of our beloved daughter, Miss Elizabeth Kivlan. We extend our appreciation to her girl friends and all others for their floral tributes.
FATHER, MOTHER, SISTER AND BROTHER.

We can safely say the low quotation is considerably less than future prices.

Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

WOODLAND BUTTERFLIES.

"Little Brown Butterfly, haven't you made a mistake?" asked Peter Gnome.

"No," said the little Brown Butterfly. "I haven't made any mistake that I know of."

"Do you know of any that I've made? Do tell me, if you know of any, for I cannot think of any that I have made. I cannot think of any at all."

"You must tell me, Peter Gnome. I believe you said your name was that, didn't you?"

"Yes, my name is Peter Gnome, and you've made no mistake in my name. But I think you've made another mistake though. Of course, I'm not sure if you have or not, but you will be able to tell me."

"Ah, then let me hear what you think it is for I will want to tell you whether I have or not and, of course, I cannot know whether I have made a mistake or not until you tell me what you think my mistake has been."

"That is a very long sentence for a little brown butterfly, isn't it?"

The Brown Butterfly smiled a sweet little Butterfly smile.

"Tell me of the mistake you think I have made."

"I will tell you at once," said Peter Gnome.

So Peter Gnome sat upon an old stump in the woods and the little Brown Butterfly sat upon a shrub nearby.

"I think you have made a mistake in finding your home," said Peter Gnome.

"Surely your home cannot be here. Surely, you have lost your way and

GAS BUGGIES—Things to worry about

EVER NOTICE THE COP WHO SARELY FLUTTERS HIS FINGERS WHEN HE SIGNALS YOU—HE GENERALLY IS HIGH-STRUNG

THEN THERE'S THE ONE WHO CHATS WITH A FRIEND FOR HOURS WHILE ALL HANDS STAND BY—

ALSO THE FRIENDLY OLD BRO WHO SMILES AT THE LADIES AND GIVES EVERYONE THE 'GO' SIGNAL AT ONCE—

THE HANDSOME ADONIS IS THE KIND WHO TAKES HIS JOB SERIOUSLY—

THE RED FACED COP WHO SCOWLS AT YOU SUSPICIOUSLY WHEN YOU ASK DIRECTIONS—

BUT THE ONE WHO GIVES ME THE CREDITS IS THE BIG MAN WHO NEVER BATS A HAIR—JUST GIVES YOU THE STONY STARE—ON BOY.

I'M JUST GOING TO FIRE THAT KID TO-DAY—TELLING HIM ABOUT ME KEEPING A CHICKEN IN THE CASHIER'S CAGE—SHE THINKS ME'S A 'GREAT KID' SINCE I'LL FIX HIM

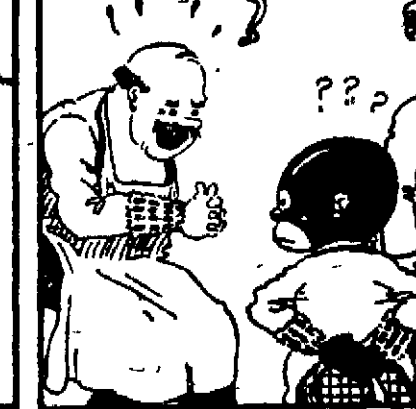

SEE HERE YOUNGSTER I MADE A FINE MESS OF THINGS HERE YESTERDAY—TELLING TWIFE ABOUT—THINGS THAT DON'T CONCERN HER.

HERE'S YOUR PAY—DON'T EVER SHOW YOUR NOSE AROUND HERE AGAIN

UNTIL MONDAY—RUN ALONG NOW AND HAVE A GOOD TIME

YES THE POOR KID HAS BEEN WORKING HARD LATELY SO HE DESERVES A FEW DAYS OFF

I'M PROUD OF YOU PETER—I NEVER KNEW YOU HAD SUCH A HARD HEART

Seldom, if ever, was any knowledge given to keep, but to impart. The grace of this rich jewel is lost in concealment—Bishop Hall

WHAT TO EAT.

It is not necessary to be a graduate of household economics to understand planning a well-balanced ration of palatable and nutritious food; but it is essential that study should be put upon the selection of foods.

For a small amount of food rightly combined will give more energy than a large amount illly combined. Some one has said that the selection and organization of food in the diet is as important as the organization of an army. A properly disciplined force of soldiers is more effective than an untrained mob, we will agree.

One of the essential things to remember is the different groups of foods:

1. Foods which provide protein which builds muscle, these are milk, eggs, cheese, meat, poultry, dried peas, beans and lentils, as well as fish.

2. Foods which furnish us starch and sugar; these are cereals, meal, flour, bread, macaroni, potatoes and such starchy foods; sugar in various forms such as honey, molasses, candies and sweet fruits, preserves, sweet cakes and desserts.

3. Foods which furnish fat. Supplied by butter, cream, olive oil, corn oil, bacon, salt pork, suet and other cooking fats.

4. Foods which supply mineral salts, vegetable acids and body-regulating substances. This is a most important group and has been slighted in the planning of the ration far too often. We find these substances in apples, pears, berries, melons, oranges, lemons and other fruits; in salads of green vegetables, such as lettuce and cress; in greens, like spinach, green peas, tomatoes and squash.

When purchasing supplies for the family table think in terms of these groups. Some house-mother will say: "My family will not eat such and such foods, or certain members of my family will not eat the kinds of food necessary for them to keep in perfect health." With rare exceptions this is admitting your own lack of properly training the children to eat the things that they should eat.

Helie Maxwell

Somewhat Confused.

Nervous (Kiddie) (at heart)—"Oh—ah! I'd like a room with a wife, for myself and bath!"

"We are the woodland butterflies—and we are happy to live where the woodland creatures are. And sometimes when people see us, they think, 'We have lost our way, for it seems so strange that any butterflies care to live away from the great dazzling sun-shine.'"

"But we do, we little brown butterflies—'We do, and we will never leave the sunny woods, the delicious, cool refreshing woods!'"

That's queer.

"At a party the children were telling me another how many brothers and sisters they had. Suddenly one of the girls exclaimed:

"Why, it isn't fair! My brother Freddie's got three sisters and I've only got two."

There's a story.

An old fashioned dance with modern dances interspersed will be held in St. John's Hall, Stony Hill, on Saturday, September 3, at 8 p. m., daylight saving time. Earl Gordon's orchestra will furnish the music.

17 BROADWAY JOHN J. LARKIN Open Evenings MANSION HOUSE BUILDING

SHOKAN.

Shokan, Sept. 1.—The Ladies Aid of the Reformed Church met at the home of Mrs. Fred Adsit Wednesday, August 31. The next meeting will be held at Mrs. George Giles', October 5th.

The ladies wish to thank the people for their kindness in contributing toward the fair and supper held on the church grounds, August 24th. They also wish to thank everyone who helped to make this fair a success. The amount taken in was \$248.06, and the total of \$215.66, was realized.

BARBER'S GENASCO SEAL RAC ROLL AND SHERLE ROOFINGS.

Guaranteed Not to Curl

There is no coal-tar or other residual pitch in any Genasco Roofing material. The base is the natural Trinidad Lake asphalt, properly and scientifically proportioned with other natural asphalt by processes obtained through many years' experience. By the use of uniformly stable and thoroughly tried asphalt the company is able to produce a roofing FREE from the DEFECTS OF OTHERS—a roofing that has LIFE and remains ALIVE. It is not injured by high or low climatic temperatures, but remains proof against years of weather—sun, air, rain, wind, snow and snow. The company's methods in manufacturing are the result of over thirty years' research.

SINN FEIN NOTE IS CONCILIATORY

By Telegram to The Freeman.
London, Sept. 2.—Although the Sinn Fein note which was delivered to Premier Lloyd-George in Scotland yesterday has not been published it was understood today to be in a very conciliatory vein. It is believed the preliminary arrangements will have been completed within a week for the coming of Sinn Fein envoys, to confer with the premier.

"There is no incompatibility between recognition of Ireland's right to independence and a close bond of union between Ireland and England," said the Irish Bulletin, official organ of the Sinn Fein.

"The Irish accept the facts that Great Britain and Ireland are closely linked in view of which the people of Ireland would not do anything to disturb the mutual interests."

"Ireland is a weak country and England is a strong one which would make for natural friendship. Whatever qualifications of complete political and economic separation are made necessary by historical facts will be acceptable to Ireland provided they are in consonance with the principle that the Irish government is in being with the consent of the governed."

This was the most conciliatory publication that has appeared in the Irish Bulletin since the peace negotiations started.

Constant's "Vacation Time." The song in waltz time composed by Paul Constant of No. 119 Downs street is making a hit in the upper Hudson river towns where it is being introduced by dance orchestras. The song has also been sung in the theatre at Hudson with success. Mr. Constant, who is a car inspector on the West Shore railroad, is also a musician of ability and he composed both the words and music of the new song.

Services At Woodstock.

Woodstock, Sept. 2.—The Rev. Henry J. Nicholas, brother of the pastor, will preach at tomorrow's Preparatory service at 2:30 (Standard time). Communion service Sunday at 11 a. m. and preaching at 8:30 p. m. briefly by the Rev. Henry and John Nicholas, on Sunday, Daylight saving time. Heartily welcome to all.

Levee Quickly Constructed.

Only seven weeks were required to throw up 240,000 cubic yards of dirt in building an emergency levee on the Mississippi river.

NEW CREAMERY FOR KINGSTON

Ice Cream Company From Schenectady May Make a Deal With the Dairymen's League—Kraft Pleads His Case and Plans Talk Follows.

Hurley, Sept. 2.—The community sing and milk meeting held in the village church August 30, was quite well attended. While waiting for the arrival of those under whose auspices the meeting was held, Domine French led the gathering in singing some old time songs. Chester Young, the head of the local branch of the Dairymen's League, took charge and outlined graphically the present milk situation. It was recalled that some weeks ago we had a similar meeting when subscriptions were pledged. Since then things have happened so that active movement is held up.

The main element was the appearance of the International Ice Cream Company of Schenectady on the scene. It was planning for the erection of a plant in Kingston. This came to the notice of the main office of the Dairymen's League at Utica, and they decided that it was unwarranted to erect a league creamery as it would simply duplicate what already existed and what was then probable. Developments, however, are slow. The International Company are endeavoring to get a location in Kingston, even interesting the Chamber of Commerce in this matter.

It is stated such a plant will be able to take care of all the milk produced hereabouts; what we need is a market for our milk, and with the International plant, no lease plant will be needed; hence the subscriptions made at the early meeting will not be called upon. This International Company will handle the surplus milk as easily as the ordinary flow as it will convert the milk into other products, freeze them and later as needed, reconver these products into milk for ice cream use. Efforts to break up the league have thus far failed; still the end is not yet as a big milk fight is still to come as the league won out on the last struggle it expects confidently to do so again.

Our district pays the producer more than is the case in many others, reference being made to Chicago, Washington and Baltimore. An interesting fact brought out by the speaker was that one dollar's worth of rye will purchase \$1.03 worth of other articles, while one dollar's worth of milk will secure here \$1.04 worth in other commodities. Even if the International Company does come, local dealers will still get their supply of milk as long as they act squarely, the league is not out to hurt anyone who treats it honorably. The International will also get all the milk it can use, facilities exist to supply every demand. This talk was most attentively listened to and appreciated.

At its conclusion, John E. Kraft gave his views of the situation. The Kingston Dairy and Ice Cream Company has agreed to handle the surplus milk and has done so. At one time this surplus milk was turned into butter and the creamery operated at a loss. The International has been our rival for years and now the Hosiery people of Albany are also endeavoring to get a foothold here. Our creamery is at the disposal of the league and I will cooperate with the league. The number of producers outside the league delivering milk to the creamery is getting less and by October first all will have joined the league but one.

Following the remarks there was a running fire of plain talk and the present situation as regards the league and the dealers put plainly and clearly.

Mr. Eppe then led the singing to "Smooth away any wrinkles that may have arisen."

At its conclusion, John E. Kraft gave his views of the situation. The Kingston Dairy and Ice Cream Company has agreed to handle the surplus milk and has done so. At one time this surplus milk was turned into butter and the creamery operated at a loss. The International has been our rival for years and now the Hosiery people of Albany are also endeavoring to get a foothold here. Our creamery is at the disposal of the league and I will cooperate with the league. This trademark, stamped in red on the cover, identifies the Willard Threaded Rubber Battery.

WE
Serve You

SERVICE!

We like to put it in capitals that way because we believe it is the most important thing in the battery business.

Of course we can't make a new battery out of an old one, or a good battery out of a poor one, or a long-lived battery out of a short-lived one. There are limits even to battery service.

But we can make any battery last longer and serve better if you give us a chance. We can make the Willard Threaded Rubber Battery do both—and it already holds records for long life and reliability.

We can always do more with a battery if we get a chance right at the start, although we are ready to help any time. Conical

You'll say, too, that we give—

SERVICE!

Berrin, teacher, gave picnic on lawn for Home children August 30.

ON-A-JOB, OFF-A-JOB JIM!

Being a Story

Of how Jim got on a job and why he got off it again.

By dint of persistent effort, Jim managed to land the job of plastering the closets he had just lathed. "If I don't do a swell job it will be the scratch coat anyway, and no one will care how level the closet walls are," he said.

The plasterer, who Jim had helped when he was working on the cement runway, finally consented, and Jim began his game of mad pies. He made an awful mess of it at first as he slapped the hair mortar on the laths. Every time he smoothed off the surface the plaster would tumble down all over him and the floor. But after a while, he caught the hang of it, and save for a growing ache in his wrist, Jim would have called the job a snap.

The ceilings were the most difficult for he was constantly fearful of lumps of the soft mush landing in his eyes. Once he caught a trowel-full in his mouth, and his spluttering made him an object of ridicule among the men.

He ate his noon lunch, dreaming of the black-eyed girl who had helped remove the splinters from his eye, and was wondering if he would ever see her again when he suddenly realized that she was standing before him. "How's the eye this morning?" she asked.

Jim rose and shook hands, all aquiver with delight. "How do you do?" he exclaimed. "The eye is all right, thanks to you. Won't you sit down? I'm longing for a chat."

"I can't stop a minute," said the girl, sitting in Jim's chair. "You are a stranger around here?"

"Yes, I am on my way to the city, but managed to pick up a few days' work on the way."

"One would say by your looks that you were a man who would amount to something, who would have a real vocation."

"But I have—the real one in the world."

"You don't call mixing cement, then lathing and now plastering, real vocations?"

"So—you seem to know all about me?"

The girl blushed. "Everyone is talking about you. Why shouldn't I? There is one thing that puzzles them though. They can't just understand why you go from one job to another every two days."

"On-a-job, Off-a-job, Jim, ah! Well, my rolling stone doesn't pick up much gold, but if I can keep my rolling up for sixteen months longer I will garner \$2,000.00 from the harvest."

The girl leaped to her feet, and seized Jim's arm in her astonishment. "\$2,000.00!" Her face was close to Jim's. "You don't really mean that?"

"Therese!"

The girl quivered, drew back. One of the carpenters placed of her from the unfinished building.

"\$2,000.00!" Therese repeated, turning her back upon the man, and I've promised to marry him and live on thirty dollars a week! Wouldn't that beat the Dutch?"

"Therese!"

"Oh, I'm going home to cry. Therese fled across the yard, without once turning back, and Jim turned to face the brave young man.

Name This TIRE and WIN An Automobile FREE

A GOOD NAME IS A VALUABLE ASSET

A five-passenger CHEVROLET BABY GRAND TOURING CAR or ROADSTER will be awarded FREE to the person who submits the most appropriate name for our new heavy duty MOTOR TRUCK TIRE.

Without rubber tires the most powerful motor truck would be entirely useless for practical purposes. The new HUDSON will solve all motor traction problems.

TRANSPORTATION BY MOTOR TRUCK

Is rapidly on the increase, particularly in this congested district.

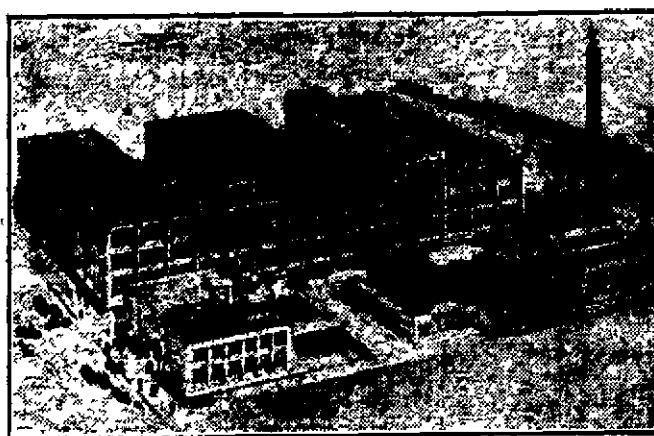

Short haul by motor truck is cheaper and much quicker than by rail.

One-ninth of all the motor trucks in the United States are within thirty miles of our plant.

This aggregation of trucks right here at our door use \$50,000,000 worth of tires yearly.

The new HUDSON truck tire is scientifically designed to reduce road pounding and eliminate shock and vibration to the motor truck itself and will deliver more service.

The HUDSON factory will be equipped to produce these wonderful tires in large volume and to give direct factory service to trucks in this section.

A PLANT OF MODERN EFFICIENCY

Now under construction, when completed will be the largest rubber factory in the east and will manufacture tires on a large scale.

A NEW TRUCK TIRE OF GREATER CAPACITY

**FUNDAMENTAL FACTS**

Our factory is in the heart of the largest tire market in the country. The Corporation is organized under the laws of New York City, the market for all raw materials, is within short haul to our factory.

The savings on transportation of raw materials to our plant and delivery of finished tires to our local market alone, represent earnings of 10 per cent. on Preferred Stock and 25 per cent. on Common Stock.

Both the Preferred and Common Stock are \$10 per share, full paid, non-assessable and tax free.

Preferred Stock is 7 1/2 per cent. Cumulative and participates in earnings up to 10 per cent.

Common is the voting stock and is subject to unlimited earnings after dividends on Preferred Stock have been paid.

GREATER POSSIBILITIES

The innumerable fortunes which have accrued to investors in rubber securities have been made by original stockholders. The tire and rubber industry is yet in its creative period, and subject to larger and more rapid advancement than in the past. The possibilities for even greater fortunes exist in the original stock of the HUDSON TIRE & RUBBER CORPORATION.

A HUNGRY BEAR SWALLOWED AIR

Startling Experience of Captain Roodboy of the Galluppers of the Famous Mountain League in Which is Related How an Invention Saved an Inventor's Life.

"I tell you what," said the Old Timer, "Captain Roodboy of the famous Galluppers who headed the Mountain League, was nothing if not progressive."

"How is that?" asked the baseball fan.

"He was the first man to own an automobile in that section," explained the Old Timer, "and he was one of the first to use the present auto tires on his machine."

"That's nothing unusual," commented the fan.

"I did not say it was," retorted the Old Timer, "but where Roodboy was progressive was the fact that he soon grew tired of using the old hand pump to pump air into the tires, and invented a device very similar to that used at local service stations where you can obtain free air. The present day devices are operated by electricity, but Roodboy evolved the scheme of using the auto engine to operate the device."

"And I'll never forget the time when he had occasion to praise himself for saving his own life. He was on an auto trip through the mountains getting a line on the ball tossers in the other teams and especially to look over several new men he had heard had been hired by Captain Twin Gormley, of the Busters."

"He was on his way home in his car and when near Slide Mountain he found then the road had been washed out by a terrific electrical storm that had broken over the vicinity the day he had left home. Realizing it was impossible to proceed further he turned to retrace his way when the two hind tires blew out."

"At the same instant one of the mountain bears strolled by and stopped to investigate. As the tires blew out they flicked a small piece of rock in the bear's direction which struck the animal on the tip of the nose. Enraged and growling fiercely, the bear circled around the car."

"Every time he circled the car the circle grew smaller, and it was but a question of but a minute or so before the bear would charge. Roodboy had left his gun home, and without a weapon he was helpless to resist an attack."

"Realizing the danger of his position he was seized with an inspiration and catching up his device to fill the tires with air he attached it to the engine of the auto. Then reaching into his pocket he brought forth a ham sandwich. He stuck the sandwich on the end of the nozzle and as the bear charged he threw the tube with the sandwich toward the animal."

"With a growl the bear swallowed the ham sandwich, nozzle and part of the tubing. Immediately Roodboy started the engine and the device worked so quickly that before the bear realized his danger he had swallowed so much air that his body expanded to twice its usual size and then suddenly the animal exploded."

"They say," said the Old Timer, "that pieces of that bear were found a mile distant from the scene of the explosion."

FIFTH BINNEWATER.

Fifth Binnewater, Sept. 1.—The picnic given by the Fourth Binnewater Sunday school was a wonderful success; considering that rain came up in the afternoon and everyone had to go home. The amount taken in for dinner and the cream, candies and soft drinks was \$61.88. Several prizes were given for games and races in the afternoon.

Mr. and Mrs. William McLaughlin and son of Connecticut are visiting her parents here.

Mrs. Piel and daughter of Ellmore were in Kingston Saturday.

Mrs. Jordan spent Sunday in Whiteport.

The play, by Camp Fire Girls, given in the Fourth Binnewater Chapel on August 20, was well attended. The girls gave a play and Louis Weist gave a violin solo, while Mrs. Rhody and Dan Carrs each sang a solo. Ice cream, candy, cake and soft drinks were sold during the evening. The proceeds, \$81.76, were given to the church by the Camp Fire Girls. This makes the third successful entertainment held in the chapel since Christmas, when they had such a delightful time, and the whole community are all looking ahead to more in the near future.

Mr. and Mrs. Floyd Deitz and daughter, Mr. and Mrs. Clarence Holmes and son, Harry Freer and son made a delightful trip Saturday last to Stanton Hill, in Greene county. Mr. Freer's sister-in-law living there joined them for an outing. They returned home Saturday evening and all enjoyed another good time at the platform dance in Fourth Binnewater Park.

Mr. and Mrs. Mathew Morgenstern and son, Arnold, of Kingston spent Sunday with Mr. and Mrs. Jacob Freer. The men were fishing part of the day and the ladies enjoyed a fine row on the lake.

Mrs. Loren Johnston and daughter, Dorothy, spent Monday in Kingston.

Harry Osterboadt, who is employed at Lake Mohawk, was in town on Sunday.

Lathe Keator is having a new house erected on the same foundation of his old one, which he tore down. The new one is progressing very rapidly.

Now that school time is drawing near, our city neighbors are leaving so their children can go back to school.

Pleasant Walks and Talks.

These nice Sunday walks, with two friends get to know one another, on an interesting, those Sunday-evening. That, when you gather by town and there is the delight, and talk so freely, and what a power they are for good, if used aright; what a power for joy, if wasted or misused! No one wants you to force the conversation into an edifying channel; but one knows how to talk pleasantly, as it were, and how often there is a choice between high and low, wise and foolish, kindly and unkindly.—Elizabeth Wordsworth.

SPECIAL BUS ON LABOR DAY

The Ellenville-Kingston bus will make special trips on Monday and Tuesday to connect with the Day Line steamer. A special bus will leave Ellenville at 9 o'clock arriving in Kingston at 11 a. m., making connections with the down boat. A bus will leave Kingston at 5 p. m. The special trip will be made to convey the large number of Labor Day visitors who will be returning to New York after the vacation period. Labor Day traffic is expected to be large and the number of vacation-

ists throughout the mountain sections is expected to exceed the Fourth of July rush. Thousands of city people taking advantage of the double holiday over Sunday and Monday will throng the hotels and boarding houses for their usual summer outing. After Labor Day many of the larger boarding houses will close for the season.

We desire to express our sincere appreciation to all our friends and neighbors who by their acts of kindness during the recent illness and death of our dear little daughter, Irene, and to all those who in any way helped to assuage our grief by their words of consolation, and for the many beautiful floral tributes.

ZION CHURCH DRIVE.

Campaign Opens Sunday For Funds to Carry on Church.

At a recent meeting held by the new board of trustees of the Franklin Street A. M. E. Zion Church, a decision was reached, after a lengthy discussion, as to the probable amount necessary to carry on the church work for the coming year, and as to plans for conducting a campaign, to open on Sunday. It was brought out that the budget made up last year was \$2,500, the amount considered absolutely necessary to cover the running expenses of the church.

At the close of the campaign it was found that the fund aimed to be raised was \$1,000 short, but \$1,500 having been raised, including expenses. There were then a number of outstanding floating bills and a mortgage of about \$700, with interest, to be looked after. The amount raised, however, was wisely distributed to meet the claims of the church creditors. To function the work properly and to meet the various demands for the carrying on, the church depends almost entirely upon what is realized during the annual campaign of the church. This is the only time that the church receives general help from the public and we

find that our best citizens and the public in general have always looked forward to this time that they may assist. The budget this year is much less than the actual cost of financing the work, but since the amount required was not fully realized last year the committee has listed the amount of \$2,000, and we urge that every effort be put forth to raise the amount during the campaign about to be inaugurated. The campaign begins Sunday, September 4, and closes on Sunday, November 20. The plans are very much the same as last year, excepting that the various committees will be divided into teams, each team with a

captain, their names to be printed later.

FRANKLIN STREET A. M. E. ZION CHURCH.
REV. E. O. CLARK, Pastor.

Boy Hit by Motorcycle.

On Thursday evening Herbert Slights, 8 years old, of No. 122 Hasbrouck avenue, was hit by a motorcycle and slightly injured. The lad went home, and without informing his parents of the mishap, dressed the wound as best he could and went to bed. This morning his mother became suspicious that the boy had been hurt and after examining the

wound called Dr. Frank A. J. Toneshok of Astoria, L. I., who had been taken out of J. Toneshok of Astoria, L. I., who had struck a boy. He claimed the truck and jumped off and was hit the sidecar of the motorcycle.

Belfast Is Quiet.

Belfast, Sept. 2.—The death of the violent outbreak of rioting raged here for several days was increased to 18 today when wounded persons succumbed to injuries. The city is quiet.

Cabbages—50 to 80 cents per 100.
Cabbage—\$1 a dozen.
Wax beans—\$1.50 per bushel.
Green beans—\$1.50 per bushel.
Lima beans—\$1.75 per basket.
Peppers—\$1 per 100.
Red peppers—\$3 per 100.
Beets—35 to 40 cents per dozen bunches.
Carrots—30 to 35 cent per dozen bunches.

AT THE THEATRES.
Comedy At Kingston Opera House—Pictures At Other Theatres.
"Bringing Up Father in Wall Street." is the attraction at the Opera House tonight at 8:15 o'clock. This rare combination of pretty girls, ravishing costumes, catchy song hits, infectious music and wholesome comedy comes direct from its brilliant success at the Manhattan Opera House, New York, where it delighted the patrons for many weeks.
Monte Blue in "The Kentuckians" at Keeney's tonight and Saturday, a romance of stout hearts and of a love great enough to surrender. Johnny Hines in "Torchy Turns Cupid".
Ethel Clayton in "Sham" is the attraction at the Auditorium tonight. "The Sky Ranger" a thrilling fifteen episode serial starring June Caprice and George B. Seitz is showing tonight also. Saturday Elaine Hammerstein in "The Pleasure Seekers".

Newspaper Campaign For Religion.
By Telegram to The Freeman.
London, Sept. 2.—For the first time in the history of British journalism a newspaper, the Daily Express, has begun a campaign to restore religion to its old place in the life of the people. "Back to God" is the slogan of the Daily Express which daily prints an editorial in sermon form pleading with men and women to give up their sins and vices and spend more time in church and in prayer at home.

Cut This Out
How to Make
Peach Jelly
Peach Jam, Too—
It's Delicious

Hitherto peach jelly has been almost unknown, even experienced preservers said it couldn't be made. Peach jam too was almost impossible to make. Now, however, by the new Certo process so highly endorsed by government experts and cooking authorities, anyone, even a child can make both of these delicious preserves at home in a few minutes and be successful every time. This is the way to make

Peach Jelly
Put cooked fruit in jelly bag and squeeze out as much juice as possible. Carefully measure 6½ leveled cups (2½ lbs.) sugar and then 3 cups (1½ lbs.) juice from cooked fruit into large saucepan (5 or 6 qt. size) and bring to a boil. At once add 1 bottle of (scant cup) Certo, stirring constantly. Continue to stir and bring again to a hard boil over the hottest fire for one-half minute, stirring constantly. Remove from fire, let stand one minute, skim and pour quickly into glasses. Makes 18 half-pound glasses of jelly.

Peach Jam
Crush ripe peaches or slices very fine; measure 1 level cup (2 lbs.) of crushed fruit into large preserving kettle. Then add 6½ heaping cups (2½ lbs.) of sugar and mix well. Bring to a vigorous boil stirring well all the time and boil hard for one minute. Remove from fire and add one scant cup (one bottle) of Certo while stirring. Let stand one minute, skim and pour into glasses. Makes 11 half-pound glasses of jam.

By the above method, as practically no boiling is required all the flavor and color are saved and two-thirds more jam or jelly is made from the same amount of fruit. The Certo Book of Recipes tells how to make all kinds of jams and jellies, including peach, plum and grape. Get a copy of the book and a bottle of Certo from your nearest grocery or drugstore, and begin to make all your preserves for the year, certain and economical (CERTO) Process.
If you grocer or druggist does not have Certo, please telephone Miss Jones at 1010 N. Main where you can obtain it. IMPORTANT—Certo is "mother nature's jam maker"—the pure concentrated jelly making preservative of fruit contains no gelatin, chemical or preservative; and because of the fact that it saves time, money, color and flavor and never fails, has revolutionized the art of jam and jelly making. Every housewife should use it.

Labor Day Meat Values of Real Merit at LAY'S SATURDAY SALE

We've done business in this city long enough now for most of the people to know what sort of market this really is—the home of highest quality meats, honest weights, sweet Bologna, Frankfurters, Smoked Goods, etc., better service and best meat values. For us to deviate one iota from the policy which has made us successful would be senseless and cents-less. That's why we continue to select the very best meats, especially for our Saturday Sales, and keep down the prices to the lowest possible level. Note the big drop in prices of Pork and Beef.

SEPTEMBER SUN KEEPS DAYS HOT

September was ushered in on Thursday with ideal July weather, and the mercury hovered around the 90 degree mark on the thermometers. That evening at 9 o'clock thermometers on Wall street registered 73 degrees. Today at noon thermometers hanging in the shade on down town streets registered 90 degrees, and as the afternoon advanced the weather grew even warmer. Old residents have a hard time remembering former September days that equal the first two days of the month this year.

ACCORD

Accord, Sept. 1.—Now that the Farm Bureau picnic at Kingston is a thing of the past, the next big event of the Autumn will be the huge clam-bake on the Reformed Church grounds along the state road near this village on Wednesday, Sept. 14. This will be the 9th annual bake and it is expected to be the best of them all. 15,000 clams and all the other good things that go with them to make a perfect feast will be provided. Bakes will be served at 3, 5, 30, 7 and 8-30 p. m. Standard time. Price per plate, adults, 1.50; children, .75. Other refreshments will also be on sale.

The Sacrament of the Lord's Supper will be administered in the Reformed Church on Sunday Sept. 11. Every member is most earnestly requested to attend.

A great many from this place attended the picnic at Kingston Wednesday.

W. W. Voight has resigned his position as agent for the local Farmers Cooperative Association, because of his inability to devote his whole time to the work. G. B. Schoonmaker has taken his place. Carl W. Nordgren has accepted the position of warehouse manager of the above organization.

Several men from Lyonsville are employed at H. L. Devos's.

State troopers arrested a party for drunkenness in the village Monday.

Mrs. Jacob Slater has moved to Walden, N. Y.

Dawitt Lester of Brooklyn, formerly of this place is visiting friends in town.

Miss Louise Muller is seriously ill at the home of Mrs. H. J. Knickel.

Cyrus Schoonmaker is employed at the creamery.

W. H. Smith has moved into J. Slater's house.

The town stone crusher has been moved to Mettacaubus.

C. Anderson unloaded a car of coal Monday.

ULSTER PARK.

Ulster Park, Sept. 2.—Ex-Congressman and Mrs. M. S. Davey and two children of Kent, Ohio, spent the week end with Mr. and Mrs. C. C. DuMont.

Mr. and Mrs. Matt. Fowler of Kingston were week end guests of Mr. and Mrs. E. S. Doyle.

Communion services will be held in the Brick Church on Sunday.

W. K. Cole is enclosing his front porch with screens. Burton Taylor of Rhinebeck is doing the work.

Mr. and Mrs. J. A. G. Davey of Sound Beach, Conn. spent several days this week with Mr. and Mrs. C. C. DuMont.

Mr. and Mrs. Oakleigh Shultis of Wittenberg called on Mr. and Mrs. Melvin Churchill on Saturday last.

Mrs. Jennie Story and grand-daughter, Janet, are visiting friends and relatives in New York city.

Chicago Grain Market.

By Telegram to The Freeman.

Ch.ago, Sept. 2.—Heavy profit taking by longs and short selling by local traders were dominant factors in wheat today. Weather conditions were favorable.

Wheat closed 1 1/2 to 2 cents lower, corn 1 to 1 1/4 lower; oats 1/2 to 3/4 lower.

Closing Prices.

Wheat—Sept., 1.24; Dec., 1.25 1/4; May, 1.29 1/4 @ 1.29.

Corn—Sept., 53 1/2 @ 54; Dec., 54 1/4 @ 54 1/2; May, 57 1/4 @ 57 1/2.

Oats—Sept., 34 1/2 @ 35; Dec., 36 1/4 @ 36 1/2; May, 41 1/4 @ 42.

Our Growing Population.

The following births were reported to the board of health today:

Mr. and Mrs. Augustus Radell of No. 31 Ravine street, a son Robert William.

Mr. and Mrs. William F. Ashdown, Albany avenue, a son William David.

Wanted to Know Papa's Status.

"Little Freddy at the breakfast table, after having tucked away one piece of cake, turned to his father and said, 'May I take another piece of cake, papa?'"

"Father, with years of training to his credit, answered, 'You'll have to ask mamma about that, Freddie.'" Whereupon mamma piped up, 'Haven't you anything to say at all, papa?'"

DIED.

STENSON—In New York city, September 1, 1921, Thomas F. Stenson, beloved father of Robert, Anna, Marie and Helen.

Funeral will be held from the late residence, 1 Rogers street, Monday morning, September 5, at 9:15 o'clock, and at St. Mary's Church 10 o'clock, where a solemn Mass of requiem will be offered for the repose of his soul. Interment in St. Mary's cemetery.

THOMAS—In New York city, Captain Henry W. Thomas, aged 75 years.

The funeral which will be private will be held from the home of his daughter, Mrs. Dwight L. McEntee, No. 95 Orchard street, Saturday afternoon at 2 o'clock. Interment in the family plot in Montrose cemetery.

Funeral services will be held at the home of the deceased, 100 East 10th street, New York city, on Saturday, September 3, at 2 o'clock.

Funeral services will be held at the home of the deceased, 100 East 10th street, New York city, on Saturday, September 3, at 2 o'clock.

Funeral services will be held at the home of the deceased, 100 East 10th street, New York city, on Saturday, September 3, at 2 o'clock.

FINANCIAL AND COMMERCIAL

By Telegram to The Freeman.

New York, Sept. 2.—The stock market showed an irregular tone at the opening this morning, with dealings on a small scale. Mexican Petroleum started 2 1/2 points lower at 102 and then fell to 101. The weakness was believed to be due to the statement by the president of Mexico that the signing of a treaty with the United States was "neither possible or necessary."

Northern Pacific yielded 3/4 to 71 and Northern was 1/4 lower at 70 1/2. American Woolen started 1/4 lower at 70 1/2 and then rose to 71 1/2. General Electric moved up 1/4 to 122 1/2 while Pan-American was 1/4 lower at 45. The steel shares were fractionally higher. U. S. Steel showed a gain of 1/4 at 74 1/4.

The advances that were made in the first fifteen minutes became more pronounced in the late forenoon when the market was chiefly one of covering of shorts and pool operations. Short covering was reported to have been a factor even in quiet stocks like Tobacco Products.

General Asphalt continued one of the most prominent features, selling at 46 1/4, a gain of over 3 points from its low price. Sears Roebuck moved up two points to 66 and Studebaker was up over two points to 74 1/4.

Mexican Petroleum moved up 104. U. S. Steel advanced over 1 point to 75 1/4.

The action of the market in the afternoon indicated increased uneasiness over those committed to the bear side. Mexican Petroleum was in large demand moving up to 107 1/2 compared with a morning low of 101 and Pan-American showed a gain of over 2 points at 47 1/2.

Northern Pacific rose over 2 points to 73. Baldwin Locomotive rose over 3 points to 78 1/2. Nearly all the other leading issues held around their high levels.

Quotations given by C. H. Halsey & Co., 27 William street, New York city, branch office, Warren building, 260-62 Fair street, Kingston, N. Y.

ABOUT THE FOLK.

Mrs. John Moore from Albany was visiting her sister, Mrs. Alonzo Miller, at 57 Gill street.

Sergeant Bell and Sergeant O'Leary of West Point are registered at Fischer's Hotel on the Strand.

Miss Marguerite Storm is visiting her aunt, Mrs. John Moore, at Albany and will also visit Troy and Lake George.

Mrs. William H. Freer has returned to the city after spending some time with her sister, Mrs. L. Van Leuven of Port Ewen.

Mrs. Robert Ackerman who has been visiting her mother, Mrs. Ida Fischer, on the Strand has returned to her home in New York city.

Miss Mabel Rose and Miss Arthur of New York are visiting Edwin J. Koch and will leave later on a motor trip to the Thousand Islands.

Mrs. W. C. Thompson and little son, of Flatbush, Brooklyn, are spending a couple of weeks at home of their aunt, Mrs. Frank Page, of Ulster Park.

Mrs. Volney Mason and Miss Adele Mason of 80 Marius street are stopping at the Park Avenue Hotel in New York on their way to Atlantic City.

Mr. and Mrs. James R. Cahill of 567 Broadway are receiving congratulations over the arrival of a baby girl at the Kingston City Hospital this morning. Dr. Francis B. Quinn is the attending physician.

Mrs. Henry Fox and nephew of 30 Ponckhockie street, and Miss Gertrude Long of 130 Delaware avenue, left for a vacation by auto up the Hudson. They will stop with friends in Albany and Schenectady.

Mr. and Mrs. Andrew J. Keefe of 291 Washington avenue have returned from a two weeks' vacation spent at their old home, Williston, Vermont. They made the trip by way of Lake George and Lake Champlain, being accompanied by the Misses Celeste Keefe, Eileen Keefe, Ethel Pultz and Ruth Smith of this city; Elizabeth Pultz of Bayonne, N. J., and Eleanor Brown of Brooklyn.

Whatever the Government does in West Virginia is largely the result of the recommendations of General H. B. Bandholtz.

At the first suggestion that Federal intervention might become necessary General Bandholtz was rushed to the scene of the disturbance and asked to report direct to President Harding. Shortly after General Bandholtz arrived the President issued an ultimatum to the miners.

When the Flind "See."

Persons who have been stricken blind after once having enjoyed the sense of sight invariably "see" in their dreams, and it would seem that they see very vividly, for they say that their "see" things in their dreams that their eyes have never beheld.

These tests showed that sunlight in an open field measures 8,000-foot candle power (which means that it gives the illumination that would be given by 8,000 candles a foot distant). Sunlight in a street between buildings measures 3,000-foot candles. Shadow in a street between buildings measures 300; under a tree in the open, 500. The light on an office desk next to a south window has an intensity of 110-foot candles; one ten feet in, 70, and one 18 feet in, 50. At inside benches between two exposures only 20.

There is practically no such thing as overlighting, writes J. H. Kunkler, in describing for the General Science Quarterly a series of tests made by the lighting service department of the Edison lamp works. He adds, "Investigation of places which are said to be overlighted will usually show that, if anything, they are glaringly under-lighted."

LAST TWILIGHT GAMES TONIGHT
The Industrial Twilight League will close the season with two games this evening. At Hasbrouck Park the Peter Schuylers will battle with the lace workers. It being the last opportunity of the cigar makers to edge into third place in the league. In case the Schuylers win the game a tie will ensue for third position. The struggle between the two teams has been keen especially in the last few weeks, when the Lace Mills advanced themselves from the obscure fifth position to their present status. The game will start at 6:15 o'clock in order to allow the full seven innings to be played. Bedford will probably occupy the mound for the Lace Mills while Nichols will likely toss them over for the cigarmakers. Jordan will umpire.
At the Athletic Field the Whitties will play the Wholesale Grocers, and a good fast game is expected. Hank Smedes will umpire this game.

WATERVLIT TEAM HERE SATURDAY
Another game that should prove a splendid attraction for Kingston fans is offered for Saturday, when the fast-stepping Centrals of Water-vliet will oppose the Colonials at the Athletic Field. The up-state team is coming to Kingston, determined to take a fall out of the local warriors, and have added several fast players to their line-up for this game.
It is expected that Pratt, who pitched for the Viaducts of Troy when that team appeared here a few weeks ago, will be in the box for the visitors. Pratt is a pitcher of the Carl Wags type, and his under-hand shoots gave the Colonial batters much trouble when they faced him here before. Pratt will be supported on the receiving end by Murray, of Troy, reported to be one of the best catchers in the Capital district.
Opposed to Pratt will be "Dick" Williams or "Bill" McAuliffe, and either of these twirlers should be able to hold the county at bay.

PLAYGROUNDS TO CLOSE SATURDAY
Kingston's playground season will officially close on Saturday, although the playgrounds operated at Hasbrouck Park, Forsyth Park and Canfield Park will remain up for some time for the use of the children. Canfield Park is a new playground on the street, which has not been officially named as yet by the board of public works, and is designated by the other play centers the

recreation department has called it Canfield Park.
The playgrounds opened in June and the attendance from June 26 to August 27, has been 124,622 people, according to the figures of the recreation department. The season has been highly successful under the administration of A. W. Bailey, playground director.
The figures of attendance show that in June the playgrounds were attended by 19,141; in July, 67,873, and August up to the 27th, 43,208.

Tackling All The Runes.
Shawkey and Harper dumbled the Senators in a double header and the Yanks retained first place.
It took 12 innings but the Tickers hammered out a victory over Cleveland, beating Cereleskie.
Rommelt's pitching against the Red Sox enabled the A's to win.
The Braves were dropped from third place by the Phillies with Meadows giving up but five hits.
The White Sox got ten hits off Taigleider but could not score a run crop.

and the Braves took the prize.
St. Louis took a hard fall out of the Pirates by winning a double header. In the first game, Pirates held his own while in the second Sherdel was invincible, giving up but four hits.

Threatens Group Crop
A tall has made its appearance on the leaves of grape vines near Middletown which threatens serious damage to what promised to be a big crop.
